

Weymouth Families,

Welcome back to our 2020/2021 school year, which is about to begin on Tuesday, September 8th 2020. To kick off our school year, for all of our in-person and virtual learners, we have made a teacher and staff welcome video linked below.

For our remote learners, we had a material pickup day yesterday, 9/3 that was communicated through a flyer and the website. If any families of remote learners did not pick up their materials, please contact our main office at 609-476-2412 for arrangements.

You'll notice an attachment with a picture of our school homepage. There is an important new section highlighted that contains teacher webpages. This is an adjustment for our hybrid educational design of this school year where teachers will be updating information such as schedules, remote learner attendance, and lessons.

Finally, we are working hard towards implementation of several new features in Oncourse Connect. This is a parent portal to accomplish several goals such as track remote learner attendance, complete a daily health screening, and make use of several other tools and resources. At this time, there have been a few technical and implementation issues on Oncourse's side that we are working with the company to have fixed and available as soon as possible. We hope to have more information for this useful tool within a short time-frame, so please stand by for updates and information.

All of the WTS faculty, staff, and administration is excited to see and begin working with our in-person and remote learners on Tuesday, September 8th.
